Old Business

Committee Update re: Proposed 2015 Law Changes Re: KRS Chapter 314A00

Ms. McDaniel stated she has communicated with Tina Siddon, Government Liaison with the KY Society Respiratory Care on the Board’s intention to raise fees by regulation and the need to change statutory laws in the 2016 General Assembly. Ms. Siddon stated the KSRC requested an informational letter from the Board to specify what fees we intend to increase and where those monies were needed in our budget. Ms. Siddon will present to the KSRC and she does not see a problem with support from the professional organization. Ms. McDaniel will draft a letter for the Board’s approval and work with Ms. Moore regarding the fees and the financial needs of the Board and continue to advocate law changes.

Ms. Lalonde suggests we show the cost of running the Board in a two year period. Like everyone in the Executive Branch of government, we are asked to cut our budget, so that we are operating on the minimum amount. Since one of our renewal cycles is smaller than the other, one of the years we bring in an insufficient amount of money to cover our bills. In the larger renewal year, if we have any money left they sweep the funds in reserve and you are back to square one with no funds to operate. Many factors have changed over the last few years that have had a drastic impact on our budget. The retirement factor has gone from 25% to 44% increase in FY 2016; COT and other costs keep going up; and the 33% increase in our office rental and the three (3) office moves the Board was forced to make in the last 10 years are a few of the items draining our budget. The first fee increase this Board had was October 2006 amounting to $12.50 per year on a two-year renewal licensure and those funds have since been taken by the state government fund reductions or sweeps.

Ms. McDaniel and Ms. Moore will work on a fee increase and Ms. McDaniel will collaborate with Ms. Siddon on statutory law changes.

Correspondence – FYI

Ms. McDaniel discussed an inquiry about a pilot program for RT integration in an oncology unit to help with nursing duties. The program requires RTs to perform procedures that may be outside our scope of practice. They will expect the RRT to start IV’s, hang, IV fluids, lab draws from picc lines, medports, monitoring blood, administration. Ms. Donahoe stated concerns about performing these duties with limited training and putting her RT licensure at risk and desired clarification of the respiratory scope of practice.

Ms. McDaniel questioned the IV’s, IV starts, blood transfusions, medport/PICC lines. It is not within the RT’s scope of practice to start IV’s in non-cardio procedures or transfuse blood. Dr. McCormick stated the blood issue alone is a huge issue. Ms. McDaniel will obtain further information. If the pilot project begins with RTs required to perform procedures outside their legal authority, the Board will hold a special meeting for April 21, 2015 to discuss the matter further.
