**Continuing Education**

Premier Home Care, Inc.

Dr. Powell discussed the Trilogy home ventilator setups addressing Joan Kruse, with Premier Home Care, Inc. Dr. Powell stated it is within a qualified respiratory therapist’s scope of care to set up and monitor home ventilators with a physician’s order. The physician can get advice or recommendations from any source the physician deems appropriate. In the case of home ventilator setups, advice could come from the RT on site. If the RT makes an assessment of the patient and feels comfortable making suggestions about the use and setting for the ventilator and the physician gives the order, it is acceptable. If, on the other hand, the RT does not feel
comfortable giving the recommendation or feels that the RT is taking too much responsibility in the giving the recommendations then, the RT should not do it.

Dr. Powell stated ultimately the responsibility for the orders to use and how to use any home ventilator (including the Trilogy ventilator) is the responsibility of the ordering physician. It is the physician’s responsibility to be knowledgeable about the use and settings for any device that is being prescribed. Dr. Powell is in conversation with the Greater Louisville Medical Society and its membership about the use of Trilogy ventilators. He also called the KY Board of Medical Licensure to see if it has a potential role and will follow up with the KY Board of Medical Licensure. Dr. Powell found guidelines for the use of home ventilators on the Tennessee Blue Cross and Blue Shield website. Dr. Powell will email his findings to Ms. Kruse.

Dr. Janice Sullivan, Kosairs Inquiry on RRT Scope of Practice

Ms. McDaniel emailed Dr. Sullivan on the role of the RT employed for ECMO and the RT’s scope of practice regarding medication administration. The law does not specify or limit medications during cardiopulmonary procedures. However, the law does require that a respiratory care practitioner perform respiratory care procedures under medical direction and with documented competency, in accordance with the agency or facility guidelines and only in accordance with the prescription of a physician. The administration of medications during a cardiopulmonary procedure is only limited if prohibited by the medical staff of the licensed healthcare facility.

Update on 2015 Renewals Continuing Education Audits

Ms. Moore shared a list of the 21 therapists that were unable to provide acceptable proof of obtaining sufficient continuing education after being audited. Dr. McCormick made a motion for legal counsel to draft Agreed Orders which include a fine and double the continuing education deficiency; seconded by Jeff Smithern. Motion carried unanimously.

Ms. Ruble was one of the therapists unable to provide acceptable proof of obtaining sufficient continuing education after being audited. Ms. Ruble does not work in KY, so she requested an Agreed Order of Surrender as opposed to the usual order. Dr. McCormick made a motion for legal counsel to draft an Agreed Order of Surrender as Revoked for Ms. Ruble. The motion was seconded by Jeff Smithern and passed unanimously.

Lisa Stampor Email Inquiry Re: Starting IV’s

Ms. McDaniel stated she had an inquiry from Lisa Stamper about ER protocol for Asthma and COPD. In that protocol the RT may give oral steroids, start an IV, or give IV steroids for severe cases. The Board agreed this is within our scope of practice. Ms. McDaniel will draft a reply that that the protocol is within our scope of practice pursuant to KRS 314A.100, since it is a cardiopulmonary procedure with competency guidelines and a physician’s prescription.

Gina Lester Email Inquiry Re: Immunizations
Gina Lester, RRT, Education Coordinator, inquired whether our scope of practice permitted giving a PPD skin test and immunizations. The Board discussed and decided it is not within our scope to administer immunizations. Ms. McDaniel will reply to Ms. Lester.

Ms. McDaniel was assigned to answer scope of practice inquiries between meetings; she will bring them to the Board for discussion if the answer is not directly in the law.

**Complaints**

Dr. Powell made a motion for the Board to go into closed session, pursuant to KRS 61.810(1) (c) and (j), to discuss proposed or pending litigation and to deliberate regarding individual adjudications. The motion was seconded by Kathy Schell and carried unanimously.

Dr. Powell moved to come out of closed session; seconded by Tami McDaniel. Motion carried unanimously.
